

BGF Emerging Markets Fund

Performance to 30 November 2013

For Professional Clients Only

Synthetic Risk & Reward Indicator (SRR)

Summary of Investment Objective

The **Emerging Markets Fund** seeks to maximise total return. The Fund invests globally at least 70% of its total assets in the equity securities of companies domiciled in, or exercising the predominant part of their economic activity in, emerging markets. Investment may also be made in the equity securities of companies domiciled in, or exercising the predominant part of their economic activity in, developed markets that have significant business operations in emerging markets. Risk management measure used: Relative VaR using MSCI Emerging Markets Index as the appropriate benchmark. Expected level of leverage of the Fund: 5% of Net Asset Value.

Fund Performance

Growth and Complete Calendar Year Performance to 30 November 2013

Source: Morningstar. Performance and performance relative to the MSCI EM NR USD is shown as at 30-11-2013 in the currency shown above and is based on a Net Asset Value (NAV) price basis. Fund performance is shown with income reinvested, net of fees. **Percentile Rank is based on the relative performance of the Fund compared to funds in the Global Emerging Markets Equity Sector, expressed as a %. 1 is the best percentile rank, 100 is the worst.

Cumulative & Annualised Performance to 30 November 2013

Source: Morningstar. Performance and performance of the JPM EMBI Global Diversified Index is shown in the currency noted above and is based on a Net Asset Value (NAV) price basis. Fund performance is shown with income reinvested, net of fees. *Performance figures are shown on an annualised basis. Past performance is not a guide to future performance. Please refer to the Fund Specific warnings in this document.

Ratings to 30 November 2013

Fund Specific Risks

The fund invests a large portion of assets which are denominated in other currencies; hence changes in the relevant exchange rate will affect the value of the investment. Compared to more established economies, the value of investments in developing Emerging Markets may be subject to greater volatility due to differences in generally accepted accounting principles or from economic or political instability. The fund may invest in smaller company shares which can be more unpredictable and less liquid than those of larger company shares.

Important Information

This material is for distribution to Professional Clients and should not be relied upon by any other persons. All financial investments involve an element of risk. Therefore, the value of your investment and the income from it will vary and your initial investment amount cannot be guaranteed.
