INDEPENDENT AUDITOR'S REPORT

For the shareholders of Concorde Securities Ltd.

Report on the audit of the annual report

Opinion

We have audited the annual report of Concorde Securities Ltd. (hereinafter: the 'Company') for the year 2020, which comprises the balance sheet as at 31 December 2020 — showing total assets and liabilities of HUF 53,496,465 thousand and profit after taxes of HUF 1,979,325 thousand —, profit and loss account for the same period as well as notes to the annual report including a summary of significant accounting policies.

In our opinion, the attached annual report provides a true and fair view of the financial position of the Company as at 31 December 2020 and of its financial performance for the business year then ended, in accordance with Act C of 2000 on Accounting (hereinafter: Accounting Act) effective in Hungary.

Basis for the Opinion

We conducted our audit in accordance with the Hungarian National Standards on Auditing and the effective Hungarian laws and other regulations regarding audits. Our responsibilities under these standards are described in more detail in '*The auditor's responsibility for the audit of the annual report*' section of our report.

We are independent of the Company in compliance with the relevant effective Hungarian regulations and the 'Rules of conduct (ethical rules) of the auditor profession and the disciplinary process' of the Chamber of Hungarian Auditors' and, in respect of matters not regulated therein, the 'International Code of Ethics for Professional Accountants (including International Independence Standards)' (the IESBA Code) issued by the International Ethics Standards Board for Accountants, and we have fulfilled our other ethical responsibilities in accordance with the same ethical requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those that, in our professional judgment, were of most significance in our audit of the annual report of the current period. These matters were addressed in the context of our audit of the annual report as a whole and in forming our opinion thereon, as we do not provide a separate opinion on these matters.

<i>Protection of client assets – improper segregation of own and client positions</i>	
<p>There is a risk whether balances on client accounts are disclosed appropriately</p> <ul style="list-style-type: none">➤ Own and client positions are not segregated properly in the records➤ Client assets (cash, securities) are used for the execution of own-account transactions by the Company <p>In view of the above, the issue of the protection of these client assets is considered as a key audit matter.</p> <p>(For the description of client-related liabilities, see the Notes, II.1.g)</p>	<p>Audit procedures related to the protection of client assets are as follows:</p> <ul style="list-style-type: none">• Review of the design, implementation and operational efficiency of controls related to the opening of investment accounts (account opening, account closing, client identification, filtering for blacklisted clients, etc.)• Review of the design, implementation and operational efficiency of controls related to the acceptance of orders, execution of transactions and settlement• Review of the design, implementation and operational efficiency of controls related to reconciliation with sub-custody systems and reporting• Review of the design, implementation and operational efficiency of controls related to complaint handling• Verification of the consistency of the data series of the securities and cash assets analytical system (CLAVIS), sub-custody system and supervisory reporting for the balance sheet date and specified dates• Other audits: reviews of client portfolios and transactions based on the database• In addition, we have examined the relevant accounts and related disclosures.

Other information: The business report

Other information consists in the business report of the Company for 2020. The management is responsible for the preparation of the business report in accordance with the relevant provisions of the Accounting Act and other regulations. Our opinion on the annual report provided in the section of our independent auditor's report entitled 'Opinion' does not apply to the business report.

Our responsibility in connection with our audit of the annual report is to read the business report and, in doing so, consider whether the business report is materially inconsistent with the annual report or our knowledge obtained in the audit or otherwise appears to contain material misstatements.

Furthermore, in accordance with the Accounting Act, our responsibilities also include assessing whether the business report was prepared in accordance with the relevant provisions of the Accounting Act and other regulations, and expressing our opinion on the above and on whether the business report is consistent with the annual report.

In meeting this obligation, in the course of formulating our opinion on the business report, we have relied on the requirements set out in Government Decree 251/2000 (XII. 24.) on the special features of the annual report preparation and bookkeeping obligations of investment firms as well as in other regulations setting out additional requirements regarding the business report.

In our opinion, the business report of the Company for 2020 corresponds to the annual report of the Company for 2020 and the relevant provisions of the Accounting Act and the other regulations referred to above in all material respects.

In addition to the above, based on the information obtained about the Company and its environment we must report on whether we became aware of any material misstatements in the business report and, if so, on the nature of such material misstatements. We have nothing to report in this regard.

Responsibility of management and of those responsible for governance for the annual report

The management is responsible for the preparation and fair presentation of the annual report in accordance with the Accounting Act, as well as for such internal controls as the management determines are necessary to enable the preparation of annual report that is free from material misstatements, whether due to fraud or error.

In preparing the annual report, the management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and applying the going concern basis of accounting while preparing the annual report. The management must rely on the going concern principle unless this is prevented by another provision or there is any factor or circumstance to prevent the application of the going concert principle.

Persons responsible for governance have the duty to oversee the Company's financial reporting process.

The auditor's responsibility for the audit of the annual report

Our objectives during the audit are to obtain reasonable assurance about whether the annual report as a whole is free from material misstatements, whether due to fraud or error, and to issue, on the basis of the above, an independent auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the Hungarian National Standards on Auditing and effective Hungarian laws and other regulations pertaining to audits will always detect a material misstatement when it exists. Misstatements can arise from fraud or error, and they are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this annual report.

As part of an audit in accordance with the Hungarian National Standards on Auditing and the effective Hungarian laws and other regulations regarding audits, we exercise professional judgment and maintain professional scepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatements in the annual report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the auditor's report to the related disclosures in the annual report or, if such disclosures are inadequate in this respect, to qualify our opinion. Our conclusions are based on the audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the annual report, including the disclosures in the notes to the annual report, and whether the annual report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those responsible for governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in the Company's internal controls that we identify during the audit.

We also provide those responsible for governance with a statement that we have complied with relevant ethical requirements regarding independence, and disclose to them all relationships and other matters that may reasonably be thought to have a bearing on our independence, and where applicable, related safeguards.

From the matters communicated to those responsible for governance, we determine those matters that were of most significance in the audit of the annual report of the current period and therefore constituted key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that the matter should not be disclosed in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other legal and regulatory requirements

In compliance with Article 10(2) of Regulation (EU) No 537/2014 of the European Parliament and of the Council, we provide the following information in our independent auditor's report, which is required in addition to the reporting requirements of the Hungarian National Standards on Auditing:

Appointment of the auditor and the period of engagement

We were appointed as the auditors of the Company by the General Meeting of Shareholders on 3 April 2017 and our engagement has been uninterrupted for 17 years.

Consistency of the Auditor's Report with the Additional Report to the Audit Committee

We confirm that our audit opinion on the annual report expressed herein is consistent with the additional report to the Supervisory Board of the Company, which was issued on 11 May 2021 in accordance with Article 11 of Regulation (EU) No 537/2014 of the European Parliament and of the Council.

Provision of non-audit services

We declare that no prohibited non-audit services referred to in Article 5(1) of Regulation (EU) No 537/2014 of the European Parliament and of the Council were provided by us to the Company. In addition, there are no other non-audit services which were provided by us to the Company which have not been disclosed in the annual report.

The engagement partner for the audit resulting in this independent auditor's report is the signatory of this report.

Key features of the accounting policy

Concorde Securities Ltd. (hereinafter: 'Concorde' or 'Company') is an investment firm as defined in Act CXXXVIII of 2007 on Investment Firms and Commodity Dealers and on the Regulations Governing Their Activities (hereinafter: 'Investment Firms Act') that has established its accounting and record-keeping system in line with the provisions of Act C of 2000 on Accounting (hereinafter: 'Accounting Act') and Government Decree No. 251/2000 (XII. 24.) on the special features of the annual reporting and bookkeeping obligations of investment firms, and by taking the unique features of the Company into consideration.

a) *Valuation methods of the various balance sheet items and the main valuation procedures*

Assets

Long-term assets

Intangible assets and tangible assets: the Company evaluates its assets serving business activities in the long term (beyond one year) at cost and/or production cost less accumulated depreciation. The costs of restructuring and foundation are not capitalised, and as such these are recognised against profit/loss in the year of incurrence. Payments relating to client transfer are registered as concessions, licences and similar rights.

With the exception of participating interests, **long-term financial assets** are shown in the balance sheet at actual purchase value. The Company recognises impairment for participating interests in line with the principle of prudence, provided that initial recognition cost and market value show long-term and substantial difference.

Current assets

The Company recognises the value of **inventories** in full as use of materials at the time of purchase.

Accounts receivable:

- The *Receivables from services provided to clients* balance sheet line shows the receivables from the fulfilment of commission contracts and asset management contracts, as well as the amount of commission agency fee on commissioned securities transactions.
- The *Receivables from the settlement of stock exchange transactions* balance sheet line shows the amount of receivables generated from own-account (non-commissioned agency) stock exchange transactions as at the balance sheet date.
- The *Receivables from the settlement of transactions concluded in OTC trade* balance sheet line shows the receivables generated from own-account (non-commissioned agency) transactions as at the balance sheet date.

- The *Receivables from the clearing house* balance sheet line shows, among others, the funds transferred to the Exchange Settlement Fund managed by KELER Központi Értéktár Zrt. ('KELER' or 'Clearing House').
- *Other receivables*: Receivables from employees and the tax authority are entered into the balance sheet by way of reconciliation with the sub-ledgers.

The Company recognises its receivables in foreign currency at the official FX rates published by the National Bank of Hungary ('MNB', Magyar Nemzeti Bank).

Securities: The Company recognises securities purchased for trading at purchase value. Upon sale, the drop in portfolio is recognised using the FIFO procedure, while year-end valuation is performed by taking stock exchange average prices (average price) and known market value into account. On the balance sheet date, the Company verifies the correctness of records through itemised inventory.

The amounts of securities appreciation determined using the valuation procedure are recognised under revenues from commercial activity, whereas the amounts of depreciation are recognised under expenditures of commercial activity.

Cash and cash equivalents are recognised at a value equivalent to banking account statements and cash-at-hand inventory.

LIABILITIES AND EQUITY

Shareholders' equity is shown in the balance sheet at book value.

Liabilities:

In addition to the liabilities shown on the *Trade payables (creditors)* balance sheet line, the Company also presents the following under short-term liabilities:

- *Liabilities to clients*: given the commissioned securities offering activity, this shows the amount due to the commissioning client, the consideration for the services provided by the securities exchange and the clearing house, the invoiced amount of services used, as well as the liabilities arising from other business activities, including the funds due to the commissioning client from asset management.
- The *Liabilities from the settlement of stock exchange transactions* balance sheet line shows the amount of liabilities generated from own-account (non-commissioned agency) stock exchange transactions as at the balance sheet date.
- The *Liabilities from the settlement of transactions concluded in OTC trade* balance sheet line shows the liabilities generated from own-account (non-commissioned agency) OTC transactions as at the balance sheet date.

The Company recognises liabilities in the balance sheet at book value. Liabilities in foreign currency are recognised at the official FX rates published by the MNB.

b) Recognition of revenues

Income and revenue are shown by the Company as per the provisions of the Accounting Act and the Government Decree.

The Company's main income sources in relation to investment service activity are as follows:

- Income from commission agency activity: the sum of commission agent fees charged for commissioned investment service activities—transactions concluded—as well as other commission incomes
- Revenues from trading operations: interest income recognised under current assets and enforced in the sale price of securities held for trading, as well as interest recognised in the purchase price of securities held for trading—recognised as items decreasing interest income—, the capital gains arising during the sale thereof, as well as the appreciation gains and interest and dividend income of such securities, etc.
- Income from lead management of securities issued: sums of fees for the management of securities offerings and other commission income
- Income from securities custodian, safekeeping and portfolio management activity: the sum of fees charged for custodian, safekeeping and portfolio management activities, and other commissions.
- Income of other investment service activity: fees, interests and other commission income charged in relation to securities account management, client account management, investment consultancy, investment loan provision, underwriting guarantees, capital structure, business strategy and related issues, consultancy relating to the acquisition and restructuring of companies, service provision, agency activity and other investment service activity; as well as the lending fees for securities loan transactions relating to investment loans, deferred payment or hold-in-custody repo.

Main rules of settlement

- The commissions on securities commission agency activity are recognised on the day of trading.
- Own-account securities transactions are also recognised on the day of trading.

c) *Amortisation policy, recognition of depreciation*

The ordinary depreciation of intangible assets and tangible assets is recognised on the basis of gross value, using the straight-line method. Asset write-off commences with the day of the start of use or commissioning and lasts until the day of scrapping or sale and/or the write-off of the full value.

Year-on-year depreciation is recognised by taking the principles set out in the Accounting Act into consideration. Under an individual purchase cost of HUF 100 thousand, the purchase cost of tangible assets is recognised as a lump sum upon start of use.

The concessions, licences and similar rights paid for client transfers are written off by the Company over the course of 15 years, and write-off is reviewed annually on the basis of the reduction of the number of clients.

d) *Bookkeeping and book closure*

The Company has established its accounting and record-keeping system in line with the provisions of the Accounting Act and the Government Decree. The Company keeps its books and records in line with the provisions on double-entry accounting. In the course of data recording and the keeping of records, it ensures the measurement and aggregation of changes in assets and liabilities, and also makes available information required for the fulfilment of the annual reporting obligation. When establishing the accounting system, it was an important aspect to establish records that fully support the management information system and mandatory data reporting.

e) *Rules on the preparation of the annual report, and the detailed content of the notes to the annual report*

The Company prepares its annual report pursuant to the provisions of the Accounting Act and the Government Decree.

The annual report is prepared for the balance sheet date of 31 December. The deadline for the preparation of the Company's annual report and the balance sheet is set by the Board of Directors.

The date of preparation of the 2020 accounts is 15 February 2021.

Parts of the annual report:

- Balance sheet
- Profit and loss account
- Notes to the Annual Report

The specific format and content of the Balance Sheet and the Profit and Loss Account, as well as the items to be shown in the Notes to the Annual Report, are determined by the aforementioned legal regulations, and the Company applies no deviations or supplementation therefrom and thereto.

The Company also publishes its annual report on its website.

The Company's website is available at: <http://www.con.hu>

Number, nominal value and type of shares

The share capital of the Company consists of 1,000,000 registered shares with a nominal value of HUF 1,000 (that is, one thousand forints) each, represented by the following share types:

- 670,000 **ordinary shares** with a total nominal value of HUF 670,000,000 (that is, six hundred seventy million forints)
- 330,000 **preference shares** with a total nominal value of HUF 330,000,000 (that is, three hundred thirty million forints).

c) Aggregate value of risks

Pursuant to Regulation (EU) No 575/2013 (CRR), the Company continuously assesses its exposures to clients and groups of clients in the framework of its investment service activity. Pursuant to Article 392 of the CRR, an investment firm's exposure to a client or group of connected clients shall be considered a large exposure where its value is equal to or exceeds 10 % of its eligible capital.

The Company had the following exposures and eligible capital available for their cover as at 31 December 2020 and 31 December 2019 (HUF Th):

	31/12/2020	31/12/2019
Total eligible capital for the exposure requirement	5,329,052	4,736,382
Capital requirement for total risk exposure value	2,089,142	1,938,856
Capital requirement of risk-weighted exposure values for credit risk, counterparty risk and dilution risk and of open delivery	1,055,735	1,124,347
Capital requirement of settlement risk	0	0
Total position risk, FX exchange rate risk and commodity risk	397,346	213,187
Total capital requirement for operating risk	633,054	599,475
Credit valuation adjustment for total risk exposure values	3,007	1,846

d) *Other findings and ancillary information*

1. The Company has no liabilities with a maturity exceeding five years, or outstanding debts secured by lien or similar rights. It has no other long-term liabilities that would have a future impact on profit/loss.
2. The Company holds no treasury shares.
- 3 Two members of the Board of Directors, or one Board member and the CEO, or one Board member and an authorised staff member, or the CEO and one authorised staff member are together authorised to represent the Company in official matters, to sign on behalf of the Company and to countersign the annual report.
4. Members of the Board of Directors:
György Jaksity (Budapest. Bérc u. 4/b)
Gábor Borda (Budapest. Mészko u. 31)
Norbert Streitmann (Budapest. Semmelweis utca 9. III. emelet 8)
5. The Company has a separate deposit account for segregating funds on client accounts. The funds owned by clients and held by the Company on 31/12/2020 amounted to HUF 45,808,796 thousand, of which HUF 26,163,812 thousand constituted liabilities in foreign currencies.
6. In 2020 the Company paid HUF 96,983 thousand in fees to the Investor Protection Fund.
7. The valuation of asset and liability items has been carried out in line with regulations and the principles set out in the accounting policy, and the impact on profit/loss has been appropriately presented in the notes.
8. The Company has no receivables due from managing directors or the members of the Board of Directors or the Supervisory Board, no advances or loans have been disbursed to them and no loans have been provided to employees in 2020.
9. The Company has no pending liabilities in respect of the future.

e) *Significant events affecting or occurring after the reporting period*

SUMMARY OF THE EFFECTS OF THE COVID-19 PANDEMIC ON CONCORDE SECURITIES LTD.
AND THE MEASURES TAKEN

The pandemic caused by the new COVID-19 virus that started at end-2019 in China radically changed the social and economic environment on the global scale.

The effects on the Company regarding 2020 are summarised below.

Effects on the operations of the Company, security measures

The Company prepared for the extreme circumstances triggered by the spread of the COVID-19 virus at the early stage of the pandemic; our operations were uninterrupted; our operation would remain viable even in the event of a nation-wide lockdown. Our employees use the workstations installed in their homes on a daily basis; our work processes continued to operate smoothly in the altered environment.

Concorde Securities Ltd. qualifies as a financial institution; accordingly, it has to ensure business continuity. Concorde continuously tested its BCP processes in the years before the pandemic as well. Our Company started preparing for the crisis in February 2020. From March 2020 onwards, 100% of our employees could perform their daily tasks with remote access. Voice recording and the appropriate communication channels work smoothly. We arranged office-based work in response to the crisis and the government measures during 2020. We continue with this arrangement: according to our preliminary plans, the presence of employees in the office may increase depending on vaccination coverage. Our customer service continues to see clients exclusively on an appointment basis, between 9 and 15 hours. The number of meetings with clients is negligible; meetings occur on online interfaces.

No technical difficulties in remote work have hindered work processes and we expect no related difficulties in future, either.

Employees working in the office have hygienic and disinfection facilities available at all times; we also provide protective equipment to our employees.

Effects on the financial management, business plans, financial and income position of the Company:

We continue to see keen investor interest in capital markets. An outstanding number of accounts were opened in 2020-2021. The trading volume on Hungarian and foreign securities exchanges was high, even though more subdued than in 2020.

It is our opinion that the Company will close 2021 again with a profit.

Effect on risk management and other information

Risk management passed the test in the previous, highly volatile situation owing to embedded controls and appropriate limit management.

- Management of counterparty and market risks:
 - continuous monitoring of account-keeping banks and counterparties.
 - continuous monitoring of own account positions,
 - monitoring of concentration risk, in particular safeguarding requirements.
- Credit risk management:
 - Continuous monitoring of leveraged positions; updating of leverage ratios with the appropriate frequencies; increasing entry limits.
 - Enforcement notices and liquidations as defined in the Rules of Business occurred less frequently in Concorde Trader, among those with investment loan positions as well as on the BSE forward market. All clients subjected to liquidations settled their debts.
 - Continuous monitoring of underlying assets. Service providers and clearing houses (SAXO, KELER) have increased the deposit requirements for positions as required by market trends, which our clients abided by in time and without difficulties up till now.

- Reputational risk:
 - appropriate client communications were prepared very early for clients, as required by the Business Continuity Plan (BCP). We prepared a separate document for clients with leveraged positions, to point out risks.
 - additional client information materials are on the way, in response to increased interest on the capital market.
 - we are not aware of any client complaints presenting reputation risk against the Company; there are no litigations ongoing.
- Settlement risk:
 - late deliveries occurred in international securities markets, but our Company generates adequate provisions for settlement risks in Pillar II. There was no need to bear obligations vis-a-vis clients due to non-performance in the market.
- Liquidity risk:
 - We encountered no liquidity issues.
 - Due to increased turnover on the stock exchange, the level of the required stock exchange collateral increased but our Company is able to assure sufficient liquidity relying on its own securities, cash and credit facilities.
- Regulatory and control risk:
 - The National Bank of Hungary monitors the operation of our Company under its continuous surveillance regime.
 - The comprehensive audit of 2021 started in March 2021; furthermore, there are several thematic audits by the Supervisory Authority under way.
 - We have not changed our audit practices: there are continuous in-process and internal controls in operation in all areas:
 - monitoring and enforcement of limits.
 - tracking of cases of insufficient cover, if any.
- Operational risk:
 - voice recording is ensured in cases of remote work,
 - the performance of orders is monitored on a continuous basis,
 - no fraud has been detected,
 - we are not aware of any substantive client complaints against the Company; there are no litigations ongoing,
 - we are not aware of any claims for damages.

Capital position:

- positions with a capital requirement have not increased.
- as a result of the management of counterparty risk, concentration risk may arise due to safeguarding requirements.
- because of the inflow of client funds, both the cash portfolio and the balance sheet total have increased, which gives rise to a higher capital requirement.

The management of the Company concluded that the potential future effects of the pandemic do not qualify as economic events to warrant a change in this annual report. On the other hand, Concorde will continue to monitor the effects of the pandemic (as it has done since its outbreak during 2020) after the end of the reporting period and is ready to take all measures necessary to ensure its uninterrupted and successful operation.
